

NEW SIDE HINGE WITH ROLLER CARRIER

New shape of the side hinge will come with R40 & TL doors from March the 1st, 2014.

Advantages:

- faster installation (no need to take down roller carrier to screw hinge to the panel);
- less outstanding from the panel (higher passage under the door leaf);
- compact look.

P.S. Wide TL doors with double hinge will temporary stay with old shape double wide hinge and roller carrier.
